

MATERIAL SAFETY DATA SHEET

Product	:	Modified Tapioca Starch
Trade Name	:	EMDEN TVH 15
Description	:	White powder used in food industry as thickening agent
Physical State	:	Powder
Handing/storage	:	No special precaution, but avoid high humidity Store at room temperature or as advised.
Fire hazard	:	Low, extinguish with water fog carbon monoxide maybe produced on combustion
Explosion hazard	:	Low, but avoid dust accumulation
Explosion limit in air	:	30 – 60 g/m ³
Auto ignition temperature	:	over 450° C
Spillage	:	Sweep and dispose of through normal waste disposal channels
Reactivity	:	Low, stable on storage
Safety and personnel	:	Protective clothing – not normally required Respiratory protection – not normally required Eye protection – not normally required Skin/eye contact – wash with water
COSHH	:	Not in schedule 1 No maximum exposure limited Generally regard as non-hazardous
